Each Fresh Round Adds to the Discoveries and Identification.

SOME WHO WERE SAVED.

From Yesterday's 3 P. M. Edition.

IFROM A STAFF CORRESPONDENT.; Johnstown, June 3 .- I have just come in from another tour around the town, with a long list of dead whose bodies have been identified. A slow drippling rain is in progress, and this only adds to the discomforts of the rescuers. However, large squads of men are busily working removing the debris. Whitmyre & Co. are meeting with an amount of success that daily increases in their efforts to legitimately introduce and advertise the "Iron City Brand" of flour. The large amount now sold shows, beyond a doubt, that the best-selling brands carry their advertisement with their use. "Iron City Brand" has come to stay and the public takes kindly to that class of goods which shows for itself what it is made of and how a trial brings out its excellencies. a trial brings out its excellencies.

Curious Prices.

Advertising prices, without clear information of what for, is one of the plagues of the clothing business. There are more apostrophes and adjectives, often over a comparatively valueless quality at a cheap price, than would do for a proclamation of martial

Never hear a word from Wanamaker's about prices, do you?

We'll do anything we can to help you to a fair judgment about clothing, and get you coming to our store, but how advertising our prices will do that is, we confess, a mystery.

They tell you about quality no more than dashing a chunk of cold iron into water discovers its temper.

There's one common-sense way of understanding prices: and that's with the goods in hand, the quality stated, and an examination of the fit and

workmanship.
. We'll submit our goods, that way of finding which is cheapest.

Nobody can beat us on prices for reliable clothing, though we're' not making a big flourish of them in newspapers,

NEW ADVERTISEMENTS. Was Ruptured 17 Years and 10 Months.

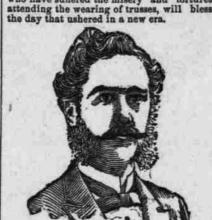

"The undersigned wishes to make it known to everybody who suffers with rupture or hernia, that my wife was afflicted with an umbilical rupture more than 17 years, and suffered much. Dr. R. A. Woods, of Penn avenue and Sixth street, treated my wife on the 4th of November, of this year. No chloroform, ether or gas was used, and the treatment was painless. All pain and inconvenience disappeared and the rupture is gone. Should anybody disbelieve this, or even doubt it, they are requested to apply to me, either personally or by letter, for further information. Our pleasure and gratitude induces me to make public the happy result of this treatment, so that many others who suffer with rupture may also be benefitted.

Of all the afflictions of men or women
Hernia or Rupture is the one that has received the least attention from the intelligent portion of medical men of the world.
How strange this must seem to the world at large; a disease that is so troublesome and universal—more than 1 out of every 17 men in this country being afflicted with it—it would seem that at least the attention given to the more common diseases would be be-

would seem that at least the attention given to the more common diseases would be bestowed on the many forms of Hernis or Rupture. Such, however, has for ages and generations not been the case, but to quacks and charlatans has been left, very largely, the treatment of all forms of Rupture. Hence it is that so many honest and confiding people have been duped and badly treated by men, who pretend to cure, yet who know they could not. But the world moves. A change has come. The day of hoop trusses and iron bands is past, and you who have suffered the misery and tortures attending the wearing of trusses, will bless

OF CHRONIC DISEASES. WHY HE ADVERTISES.

What the late Henry Ward Beecher said What the late Henry Ward Beecher said about newspapers and doctors: "I am glad that the doctor cured him. I am glad the doctor put it into the paper that he cured him, and if any doctor is certain that he can cure such diseases and does not put it into the papers, I am very sorry. What a pity it would have been had this doctor come to town, with his wealth of science and experience, and gone away leaving him uncured! What a pity it would have been if he had been so prejudiced against advertising as to read the responsible certificates of the doctor and give him the go-by as a quack! read the responsible certificates of the do-tor and give him the go-by as a quack! What are the newspapers for if not to circu-late valuable information? What more val-uable information can a newspaper give than to tell a sick man where he can be cured? If a man has devoted his life to the study of a special class of diseases the ne-cessity of saying so becomes all the more pressing. His duty to advertise becomes imperious."

imperious."

Many well-known citizens of this and other cities testify to Dr. Woods' genius and remarkable success. Men and women whose lives had been for years miserable from disease that was pronounced incurable have been restored to health by Dr. Woods. So numerous and so trustworthy are his references and indorsements, so remarkable and permanent are the cures he has effected by his superior skill and ability, and so continuous his success that he stands prominently forth as a physician who may be consulted with the utmost confidence that his treatment will cure even the most des-

perate cases.

OUR WONDERFUL SHOE TRADE HOW WE ESTABLISHED IT.

We have been in the Shoe business but little more than four years; yet, within that short time have built up a trade way ahead of any other house in the city, and now our great business has reached such vast and gigantic proportions that we're abreast with the two mammoth shoe

dealers of the populous East. "And the cause of this wonderful trade?" you ask. We keep as good Shoes as there are in the world—as good as can be made. Many of the very best makes we control-you can't get them elsewhere in Pittsburg; we have every width, every size and every half and fraction of both: we have every style from plain to the most ultra fashion; and especially do we keep easy, comfortable shoes; and that are at the same time

sightly, though plain, or, others again, that're not only comfortable, but rich, fashionable, elegant! It's our prices, however, that are our greatest stronghold. Selling fine Shoes at a saving to our patrons of from \$1 to \$2 per pair is what brings

the crowds to our store. KAUFMANNS'
